Re: Office products pricing

December 20, 2010

Dear Valued Customer

Due to the recent increases in raw materials, energy, and freight, coupled with the fact that SIS-USA has been able to maintain its current pricing for office tables and accessories since 2007, we are forced to initiate a price increase on January 20, 2011 as follows:

The price increase varies per product line and specific items within a range from three and one half to ten percent. The Surf 2 line is not affected by this price increase.

New pricing will be available after the holiday online at [www.sisusainc.com](http://www.sisusainc.com) in the download center. A second notification will be sent with a link when it becomes available.

Any orders placed on bona-fide purchase orders for these products before January 20th that include a delivery before April 1st will be held firm at the old pricing. Please contact your local SIS-USA representative for support and registering projects. We appreciate your support of our company and products.

Regards

SIS-USA
