informal seating solutions

flexible classrooms begin with flexible learning spaces! Every student learns different. Let SIS help create a relaxed learning environment that will meet the environmental needs of any student or teacher!

fatboy options

Sit in it... lie on it... throw yourself at it... let it conform to your body in whatever position you feel best! This modern classic is durable, colorful and designed for any learning centered environment! Fatboy® is made with nylon, PVC coating for water resistance and filled with virgin polystyrene beads.

fatboy avenue

Fatboy® avenue is a design tour de force. This interactive 'puzzle-like' lounge module allows for a diverse range of fun configurations. Comprised of upright building blocks called first Avenue and slanting elements referred to as second Avenue, Fatboy avenue can be composed in the form of blocks, tubes, circles, islands and gullies. Fatboy® avenue is ideal at home, work and is also perfect in garden, beach clubs and even camping sites
