

surf2 bilevel table

design... that fits!

...design that fits!

surf2 bilevel table

full range dual-surface adjustability

Electric dual-surface adjustability meets the technology and design demands office and healthcare environments while offering multiple-user work stations.

Key Features:

- Newly designed "dual post" foot
- Dual-surface electric tables in any width from 30" to 96"
- Standard (150 lbs.) or Heavy Duty (250 lbs.) per leg lifting capacity
- Available as a frame only – transform your existing surfaces
- ANSI-BIFMA compliant adjustable surfaces – 22.1" – 48.6"
- Single or dual switches from simple up/down to digital/programmable
- Ample room for multiple monitor and multiple keyboard and peripheral equipment applications
- Use as a dual-sided work table for two workers with one base and two switches

USER FRIENDLY SOLUTION

surf2 conference tables are ideal for anyone that needs specialized accessibility, in a wheel chair, or has limited motion.
