surf2 conference table

one-touch adjustability for any conference room

Sit for a morning meeting – stand for an afternoon impromptu – the power of multi-user adjustability is now available with the touch of a switch. Surf2 conference tables are now available in almost any shape or size to maximize meeting versatility. This innovative approach to multi-user adjustability can revolutionize how you meet with co-workers and customers.

Key Features:

- Newly Designed "T" foot for stability
- Available in any shape or size up to 4' x 10'
- Standard (150 lbs) or Heavy Duty (250 lbs) per leg lifting capacity
- Available as a frame only – transform your existing conference surface
- ANSI-BIFMA compliant – adjusts 22.1" – 48.6"
- Variety of height adjustable switches from simple up/down to programmable
- Interchangeable feet and frame components enable transformation to other table shapes and sizes

ANSI-BIFMA compliant
adjusts 22.1" – 48.6"

USER FRIENDLY SOLUTION

surf2 conference tables are ideal for anyone that needs specialized accessibility, in a wheel chair, or has limited motion.
